

Community Health Clinic's Clinical Support Staff

Community Health Clinic's Clinical Support Staff spend each work day providing valuable assistance to our patients, providers, co workers, and local organizations. This selfless team play an integral role at all stages of patient care from the initial contact through the diagnosis, treatment, and beyond. From triaging, injections, scheduling outside tests and appointments to daily interaction with sick and injured patients, this staff is on the front line of patient care. Hats off to our hardworking Clinical Support Staff and keep up the great work!

- National Childhood Obesity Awareness
- Fruits and Veggies-More Matters Month
- National Eating Disorders

Flu shots will be available **October 6, 2014**. Protect your self and enjoy a flu free year. To schedule your flu shot, please call 724-335-3334.

Your health depends on it!

Open Enrollment

Begins November 15, 2014

*"It is the difference between
access to care, and none."*

Avoid the Flu

There are steps you can take in your daily life to help protect you from getting the flu.

- Wash your hands often with soap and water or an alcohol-based hand rub.
- Avoid touching your eyes, nose, or mouth. Germs spread this way.
- Try to avoid close contact with sick people.
- Practice good health habits. Get plenty of sleep and exercise, manage your stress, drink plenty of fluids, and eat healthy food.
- Cover your nose and mouth with a tissue when you cough or sneeze. Throw the tissue in the trash after you use it.

If you are sick with flu-like illness, stay home for at least 24 hours after your fever is gone without the use of fever-reducing medicine.

Church of God Fall Fest

Community Health Clinic participated in Church of God's annual Fall Festival on September 6, 2014. Proceeds of the event were donated to a local family whose teenage daughter's cancer has returned after 8 years in remission. A strong event for a very courageous family.
